Inver Grove Heights Community Schools to host district's first-ever Student-Led Technology Conference

Inver Grove Heights Community Schools will host its first-ever Student-Led Technology Conference from 8:30-11:30 a.m. on Saturday, May 21.

ISD 199 students from a variety of grade levels will teach adults how to utilize technology in their everyday lives.

Courses will allow for opportunities to learn about and explore various technologies that students use on a regular basis. These digital natives will reveal tips and tricks on how adults can enrich their lives with the aid of technology.

Adults will learn to:

- Download and operate useful apps on iPads and iPods
- Create a digital family scrapbook.
- Collaborate and communicate with family, friends and co-workers around the world using video conferencing and other tools.
- Design their own website.
- Publish work to iTunes and the web.
- Share media files with children and grandchildren.
- Produce more engaging work presentations.

A full list of course opportunities can be found on the district website at www.invergrove.k12.mn.us.

- more -

This event is FREE to the general public and is open to residents from all communities. Please come enjoy this learning opportunity with our students.
